PETER BAVASI

President & Chief Executive Officer

The talented and energetic man who runs the Blue Jays, 37 year-old Peter Bavasi, was literally born into baseball. His father, Emil J. ("Buzzi") Bavasi, is one of the great baseball executives of all time.

Peter was born October 31, 1942, in Bronxville, New York. His father's 17-year association with the Brooklyn Dodgers was one of the most exciting and colourful eras in the game, and Peter was part of every moment of it. He was backstage in the era of Jackie Robinson, Roy Campanella, Duke Snider, Bobby Thompson's home run, the World Series, and countless other personalities and events that are the flavour and substance of baseball even today.

He moved, along with baseball to the West Coast. In 1964 he received a B.A. degree from St. Mary's University in Moraga, California. After graduation, he married the former Judy Marzonie. The same year, he returned to baseball as business manager of the Los Angeles Dodgers' farm club in Albuquerque. In 1966, he became general manager of the Dodger's Santa Barbara club. At the young age of 24, Peter was at the helm of a professional baseball operation. Two years later, he returned to Albuquerque but his stay was brief. In 1969 Peter joined his father to bring the San Diego Padres into existence. As Director of Minor League Operations, Peter constructed the nucleus of the Padres' bright young player development system.

In 1973 he stepped up to become vice-president and general manager of the Padres, a post which he held until accepting the challenge of building the Blue Jays on June 18, 1976.

The arrival of the Blue Jays in Toronto and the American League during 1977 was a monumental challenge, but soon became an unqualified success as the new club surpassed all previous standards of attendance and popularity.

At the conclusion of the first season, the Blue Jays Board of Directors acknowledged Peter's efforts in the success of the Blue Jays. On November 24th, 1977, he was named President and Chief Executive Officer of the Toronto Blue Jays Baseball Club.

The 1977 season also marked the first time in baseball history that a father and son have operated two major league clubs at the same time, as Peter's father was President of the San Diego Padres. The following year found the two as rivals within the same league, with the senior Bavasi moving up the coast to guide the California Angels.

Peter and his wife Judy have two children, Patrick 12 and Christine 9, and the family have become active and enthusiastic members of their new community in Toronto.

PAT GILLICK

Vice-President, Baseball Operations

As the man in charge of assembling a pennant contender for Toronto, Pat Gillick has a rather large task confronting him. Should he demonstrate the same eye for talent that he has shown in the past, it won't be long before the Blue Jays fans find their team in the thick of their first pennant race.

The 42 year-old former pitcher has been instrumental in the past with the development of such major league stars as Rusty Staub, Joe Morgan, John Mayberry and Cesar Cedeno. Although the Toronto farm system is still in its embryonic stage, the signs are encouraging with numerous prospects making their way through the different levels to the major leagues.

A native Californian, Gillick graduated from the University of Southern California and then signed with the Baltimore Orioles. As a southpaw hurler, Pat made it to the Triple A level before retiring as a player and deciding to redirect his efforts towards the management side of the game.

He joined on with the Houston Astros as Assistant Farm Director in 1964, working his way through the position of Regional Scouting Co-ordinator to the post of Co-ordinator of Player Development and Scouting.

In 1974, Pat held a similar position with the New York Yankees running their Player Development and Scouting Departments. Two years later he decided to accept the challenge of heading up the baseball operations for the newly conceived Blue Jays.

One of the youngest men in his position in all of baseball, Gillick is responsible for all baseball related activities including scouting, the farm system and the major league team. Throughout his career and especially during his brief tenure with the Blue Jays, he has built up a reputation as an astute judge of talent and a shrewd dealer. When you are a last place club starting out from the bottom you have to be prepared to take a few chances along the way. Not one to shy away from a deal, in a little over three seasons, Pat has assembled the nucleus of some promising young players such as Alfredo Griffin, Dan Ainge and Dave Stieb.

Pat is married to the former Doris Sander and they have a seven year-old daughter, Kimberley. The Gillicks reside in Toronto.

NAME THE TEAM CONTEST

The Blue Jays were named in a contest conducted in June and July of 1976. Over 30,000 individual entries were received, suggesting over 4,000 names for the new American League club. From the list of names submitted, specially-appointed panels of judges selected ten names to submit to the Board of Directors. The Directors chose the name "Blue Jays" from that list and announced their decision on August 12th, at which time the team officially became the Toronto Blue Jays Baseball Club.

A total of 154 people submitted the name Blue Jays, and a drawing was held to select a grand prize winner from those who submitted the name. Dr. William Mills of Etobicoke, Ontario, won a pair of season tickets for 1977 and an all-expenses paid trip for himself and his family to watch the Blue Jays at spring training in Dunedin, Florida. Nine runners-up also won season tickets.

BLUE JAYS LOGO

The Blue Jays logo was created by the Toronto design firm of Savage Sloan, Ltd. It depicts a stylized Blue Jay on a red baseball outline incorporating a red maple leaf. The logo features two shades of blue, and red. It was selected to represent three facets of the club's identity: the team name, baseball, and the fact that the team is Canadian.

JOHN SILVERMAN
Equipment Manager

A Montreal native, John started with the Blue Jays back in October of 1976 and in the period of 4 short months he accomplished the task of completely outfitting Toronto's first major league baseball team.

After graduating from Baron Byng High School in Montreal in 1969, John worked part-time with the Expos starting out with the grounds crew but eventually working his way into the club houses at Jarry Park. He stayed with the Expos through the 1973 season but then accepted a full-time job as the Sports Coordinator for a Montreal Youth organization. Longing for a chance to return to baseball on a full-time basis John's desires materialized in the fall of 1976 when Peter Bavasi gave him a call and offered him the equipment manager's job with the newly formed Blue Jays.

Besides devoting much of his free time in the off-season to youth groups, Silverman 29, is an avid skier. A bachelor, John maintains a residence in Montreal.

THE PEARSON CUP

The Pearson Cup Game is an annual exhibition game between the Montreal Expos and the Toronto Blue Jays. This in-season exhibition series is named in honour of the late Prime Minister of Canada and Nobel Peace Prize winner, Lester B. Pearson. The proceeds from the game are donated to amateur baseball in Ontario, Quebec and Canada with the site alternating on a yearly basis between the home parks of the two clubs.

In the inaugural game (1978) the Expos emerged victorious by a 5-4 score in 10 innings.

Last year, the game ended in a 4-4 tie after 10½ innings as the result of a curfew due to Montreal's travel schedule.

This year's game will be played on July 31 in Montreal.

FREE AGENT DRAFT RULE: Major league and National Association clubs participate in two meetings a year for the purpose of drafting free agent player talent. Selection of a free agent entitles the club to the exclusive right of negotiation with the player for a specified period (from the date of selection until 15 days prior to the next draft meeting). Draft meetings are held in June and January.

There are two phases to each draft meeting:

(1) Regular Phase: Clubs choose in inverse order of major league standings, selecting free agents and previous draftees who had not signed contracts but had instead enrolled in four-year colleges and since had either completed his junior year or become 21 years of age. . .Each organization may select only one player for each of its major league, AAA and AA rosters but is not limited to the number of picks for "A" level. . .Minor league clubs select in the same relative order as their parent clubs.

(2) Secondary Phase: Selection of free agents who had been drafted previously but who had not signed contracts before the negotiation right expired (except those draftees who had enrolled in a four-year college and had since graduated or become 21 years of age–now drafted in Regular Phase). . .It is possible for a club to redraft a player whom it had been unable to sign after the original selection, but only with the express written consent of that player. . .The order of selection is by lot with the 26 major league clubs divided into two 13 team groups with the groups alternating having first selections in respective drafts.

If a club fails to sign a drafted free agent, its exclusive right to negotiation will expire on a specified date (see below). . .Such a player then becomes eligible to be selected at a subsequent date in the secondary phase of the draft.

Date Selected	Rights Expire
Winter Draft	15 days prior to Summer draft
Summer Draft	15 days prior to Winter draft

REGULATION GAME: A regulation game consists of nine innings unless extended because of a tie score or shortened because (1) the home team needs none of its half of the ninth or only part of it, or (2) because the umpire-in-chief calls the game after five completed innings. A regulation game may be less than five innings if the home team is ahead after the first of the fifth, or takes the lead or ties the score while at bat in the fifth.

TIE GAME: A regulation game that is called by the umpire-in-chief when both teams have the same number of runs is a tie game. Individual player performances are official and are entered in the records, but the game does not count in the League standings and may be re-scheduled at a later date.

SUSPENDED GAME: A game becomes a suspended game if it is terminated for any of the following reasons: (1) a curfew imposed by law; (2) a time limit permissible under league rules; (3) light failure or malfunction of a mechanical field device under control of the home club (including automatic tarpaulin or water removal equipment; or (4) Darkness because of any law, the lights may not be turned on. No game called because of a curfew or a time limit shall be a suspended game unless it has progressed far enough to have been a regulation game (see above). A game called under either provision (3) or (4) shall be a suspended game at any time after it starts. Note: weather and similar conditions shall take precedence in determining whether a called game shall be a suspended game. A game can only be considered a suspended game if stopped for any of the four reasons specified.

Suspended games shall be resumed at the exact point of suspension immediately preceding the next scheduled single game between the two clubs on the same ground. . .If this is not possible, other provisions for resumption are specified in American League Regulation 3.8.

A game called at the END of a completed inning AFTER NINE INNINGS for any reason shall be a SUSPENDED game. This rule became effective in 1969. Formerly, the game would have been declared a tie and replayed in its entirety at a later date.

DISABLED LIST: Pitchers must be on for a minimum of 21 days. All other players may be placed on a 15 day list.

AMERICAN LEAGUE CURFEWS: No inning of an American League night game can start after 1:00 a.m., local time. Any inning started prior to 1:00 a.m. can be completed.

Saturday night games in Baltimore, Boston, and New York must be halted at 11:59 p.m., local time, regardless of conditions. In other night games in Baltimore, no inning can start after 11:59 p.m., but any inning started before that time may be completed.

Any game, regardless of length, called because of the time curfew, becomes a suspended game and must be completed from the exact point of interruption before the teams play their next scheduled game against each other.

DEFINITION OF NIGHT GAME: Any game scheduled to start after 6:00 p.m., (i.e. 6:01 p.m., or later) will be considered a night game. If a game is scheduled to start at 6.00 p.m., and is delayed by rain or for any other reason, it will be considered a day game.

However, both games of a twi-night doubleheader shall be considered night games. When afternoon and night games are played on the same date and separate admissions are charged, they will be counted as one day and one night game, and will not be included in doubleheader statistics.

BATTING CHAMPIONSHIP QUALIFICATIONS: A batting champion must have 502 or more actual plate appearances. (The equivalent of 3.1 appearances for each of the 162 scheduled games.) If, however, there is any player with fewer than the required number of plate appearances whose average would be the highest if he were charged with the required number of official at bats, then that player shall be awarded the batting championship.

EARNED-RUN AVERAGE CHAMPIONSHIP QUALIFICATIONS: To win the earned-run average championship a pitcher must pitch 162 or more innings and have the lowest earned-run average.

FIELDING CHAMPIONSHIP QUALIFICATIONS: A fielding champion must appear in 108 games at his position, except a catcher, who must appear in 81 games.

DETERMINING THE MAGIC NUMBERS: Determine the number of games yet to be played, and one, then subtract the number of games ahead in the loss column of the standings from the closest opponent.

DETERMINING BATTING AVERAGE: Divide the number of at bats into the number of hits.

DETERMINING AN EARNED-RUN AVERAGE: Multiply the number of earned runs by nine; take the number and divide it by the number of innings pitched.

DETERMINING SLUGGING PERCENTAGE: Divide the total bases of all safe hits by the total times at bat (At bats do not include walks, sacrifices, hit by pitcher, or times awarded first base because of interference or obstruction).

DETERMINING FIELDING AVERAGE: Divide the total putouts and assists by the total of putouts, assists and errors.

DETERMINING PERCENTAGE OF GAMES WON AND LOST: Divide the number of games won by the total games won and lost.

CONSECUTIVE HITTING STREAKS: A consecutive hitting streak shall not be terminated if the plate appearance results in a base on balls, hit batsman, defensive interference or a sacrifice bunt. A sacrifice fly shall terminate the streak.

CONSECUTIVE-GAME HITTING STREAKS: A consecutive-game hitting streak shall not be terminated if all the player's plate appearances (one or more) result in a base on balls, hit batsman, defensive interference or a sacrifice bunt. The streak shall terminate if the player has a sacrifice fly and not hit.

CONSECUTIVE-GAME PLAYING STREAK: A consecutive-game playing streak shall be extended if the player plays one half-inning on defense, or if he completes a time at bat by reaching base or being put out. A pinch-running appearance only shall not extend the streak. If a player is ejected from a game by an umpire before he can comply with the requirements of this rule, his streak shall continue.

SUSPENDED GAMES: For the purpose of this rule, all performances in the completion of a suspended game shall be considered as occurring on the original date of the game.

"SAVE" RULE: A pitcher shall be credited with a save when he meets all three of the following conditions:

(1) He is the finishing pitcher in a game won by his club, and
(2) He is not the winning pitcher, and
(3) He qualifies under one of the following conditions:
   (a) He enters the game with a lead of no more than three runs and pitches for at least one inning, or
   (b) He enters the game with the potential tying run either on base, at bat, or on deck (that is, the potential tying run is either already on base or is one of the first two batsmen he faces), or
   (c) He pitches effectively for at least three innings.

DESIGNATED HITTER RULE

A hitter may be designated to bat for the pitcher in any spot in the batting order in any game without affecting the status of the pitcher. The designated hitter must be selected

and be included on the lineup cards presented to the umpire-in-chief prior to the game. Failure to do so precludes the use of a designated hitter for that game.

The designated hitter is "locked" into the batting order but may be removed for a pinch-hitter or pinch-runner, who in turn becomes the designated hitter. The designated hitter, while still in the game, may be used defensively but the pitcher then assumes the batting order of the replaced defensive player, thus terminating the designated hitter role.

The designated hitter is eligible for all American League batting titles.

SCORING RULE ON PINCH-HITTERS

A player shall be considered a pinch-hitter only if he enters the game as a substitute batter and then only on his first time at bat which must be before he becomes a fielder. If the team bats around and a pinch hitter comes up a second time in the inning in which he first appeared he will not be considered a pinch hitter during that second time up.

A substitute hitter for a Designated Hitter is both a pinch hitter and a designated hitter on his first time at bat. On subsequent trips to the plate he is a Designated Hitter only.

EARNED-RUNS RULE

The determination of earned-runs is as follows:

'An earned-run is a run for which the pitcher is held accountable. In determining earned-runs, the inning should be reconstructed without the errors and passed balls, and the benefit of the doubt should always be given to the pitcher in determining which bases would have been reached with errorless play.'

Until 1969, the reliefer could not be charged with an earned-run if he entered the game after the side could have been retired but for an error, no matter how many runs he subsequently gave up in that inning. Now, runs scored by batters who reach base off the reliefer are charged as earned on that pitcher's record. They are not, however, charged as earned against the team as a whole. Therefore, a discrepancy may occur between the total earned-runs charged against a team and the sum total of the earned-runs charged against the individual pitchers of that team.

DOCTORED BAT: If a filled or "doctored" bat is used, the player is to be ejected from the game and suspended three days. Any balls hit by an illegal bat do not count. If the umpire sees the illegal bat before it is used, he issues a warning, but there is no penalty.

DETERMINING A "MAJOR LEAGUE YEAR": 172 days constitute a full year in the major leagues.

ROOKIE QUALIFICATION: A player shall be considered a rookie unless, during a previous season or seasons, he has (a) exceeded 130 at bats or 50 innings pitched in the major leagues; or (b) accumulated more than 45 days on the active roster of a major league club or clubs during the period of a 25-man limit (excluding time in military service).

GAME WINNING RBI: The RBI that gives a club the lead it never relinquishes.

BLUE JAYS RADIO BROADCAST TEAM

Tom Cheek and Early Wynn
Flagship Station: CKFH 1430 Toronto

For millions of sports fans throughout Ontario and Western New York State the sound of Blue Jays baseball on the airwaves immediately brings to mind the distinctive voices of Tom Cheek and Early Wynn. While the team on the field has undergone numerous changes over the course of the first three seasons Tom and Early have been broadcasting all of the Blue Jays games since Opening Day 1977 along the many stations of the Hewpex Radio Network.

A native of Pensacola, Florida, Tom attended Plattsburg State College in New York and then graduated from the Cambridge School of Broadcasting. Cheek 40, began his broadcasting career in Plattsburg and then moved to Burlington, Vermont where he served as the Sports Director and Corporate Sales Manager of three group radio stations.

Along with baseball Tom's many broadcasting assignments have included stints in basketball, football and hockey at the University of Vermont. Prior to becoming the 'Voice of the Blue Jays' as their first play-by-play announcer he was a member of the Montreal Expos broadcast team from 1974-1976.

Throughout the course of the season Tom acts as the emcee at many of the Blue Jays functions including the Labatt's Player of the Month Luncheons while in the off-season he participates in the annual caravan and heads up the speakers bureau. An avid golfer Tom is also very active in community affairs.

Married with 3 children – Tom Jr. (13), Lisa (10) and Jeffrey (9), Tom and his wife Shirley make their home in Burlington, Ontario.

The only "Hall of Famer" in the Blue Jays family to this point, Early Wynn will be entering his 4th season with Tom as the Blue Jays colour commentator. During his first three seasons behind the microphone Early has accumulated a large following with his 'folksy' stories and interesting anecdotes built from being only one of six men to ever have played baseball in four different decades.

Early's amazing career began in 1933 with the Washington Senators and continued until 1963 when he won his 300th game as a member of the Cleveland Indians. "Gus", as he is called, was a key member of the Indians legendary pitching staff of the late forties and early fifties, winning 20 or more games 4 times with Cleveland and once later with the Chicago White Sox. Early also appeared in the World Series in three different years (1948, 1954 and 1959).

As one of only 14 men ever to win 300 games in the major leagues, Early was inducted into the Hall of Fame in 1971.

Early and his wife Lorraine make their off-season home in Nokomis, Florida.

GRIFFIN NAMED CO-WINNER OF 1979 A. L. ROOKIE OF THE YEAR AWARD

Toronto Blue Jays shortstop ALFREDO GRIFFIN, who established new club records in hits (179), runs (81), triples (10) and stolen bases (20), has been named co-recipient of American League Rookie of the Year Honours as selected by the Baseball Writers Association of America. GRIFFIN finished in a first place tie with Minnesota Twins third baseman John Castino. The deadlock marks the first time in A.L. history that there has been co-winners of the Rookie Award.

GRIFFIN and Castino each received 7 of a possible 28 votes in the balloting with California Angels relief pitcher Mark Clear ending up in second place with 5 votes. Pitcher Ron Davis of the New York Yankees, first baseman Pat Putnam of Texas and Chicago White Sox pitcher Ross Baumgarten each received 3 votes.

GRIFFIN 22, joined the Blue Jays from the Cleveland Indians in an off-season deal for relief pitcher Victor Cruz. In 153 games the freshman switch hitter batted .287 with 2 home runs and 31 RBI's as the club's leadoff hitter. GRIFFIN the American League's Player of the Month for September, becomes the first Blue Jay in the club's brief three year history to win a major award.
